

MONEY MARKET  
FUND

Product Brochure

Portfolios managed in the Afena SA Cash strategy invest in the money market with the objective of allowing investors to preserve capital, maintain liquidity and generate a sound level of income. Portfolios managed in this strategy invest in South African money market instruments with a term of less than one year, and comply with prudential investment guidelines as set out in Regulation 28 of the Pension Fund Act.

We are able to tailor segregated investment portfolios as per client's unique needs and preferences.
